

MACOMB COUNTY DEPARTMENT OF ROADS

NOTICE TO BIDDERS

**ADDENDUM #1**

MCDR

1 of 1

February 20, 2019

**MDEQ Permit**

1. The approved MDEQ permit was received after this project was posted for advertisement. There are no special conditions included in this permit. The attached permit will be incorporated into the Contract Agreement.

## NOTICE OF AUTHORIZATION

**Permit Number: WRP015321 v. 1**

**Date Issued: February 14, 2019**

**Site Name: 50 - Romeo Plank Road over North Branch Clinton River**

**Expiration Date: February 14, 2024**

The Michigan Department of Environmental Quality, Water Resources Division, P.O. Box 30458, Lansing, Michigan 48909-7958, under provisions of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended; specifically:

- Part 31, Floodplain Regulatory Authority of the Water Resources Protection.
- Part 301, Inland Lakes and Streams.
- Part 303, Wetlands Protection.
- Part 315, Dam Safety.
- Part 323, Shorelands Protection and Management.
- Part 325, Great Lakes Submerged Lands.
- Part 353, Sand Dunes Protection and Management.

**Authorized Activities: Remove and replace the deck and railings of the existing 37.1 foot long, 65.5 foot span, 8.6 foot rise steel I-beam bridge at the Romeo Plank Road crossing of the North Branch of the Clinton River. All activities shall be completed in accordance with approved plans and conditions of this permit.**

To be conducted at property located in: Macomb County, Waterbody: North Branch of the Clinton River Sections 05 and 06, Town 04N, Range 13E, Ray Township

Permittee:  
Macomb County Department of Roads  
117 South Groesbeck Highway  
Mt. Clemens, Michigan 48043

A handwritten signature in black ink, appearing to read 'John Skubinna', is positioned above the printed name and title.

# MICHIGAN DEPARTMENT OF ENVIRONMENTAL QUALITY WATER RESOURCES DIVISION PERMIT

**Issued To:**

Macomb County Department of Roads  
117 South Groesbeck Highway  
Mt. Clemens, Michigan 48043

**Permit No:** WRP015321 v.1  
**Submission No.:** HNK-ZMJJ-MTCQA  
**Site Name:** 50 - Romeo Plank Road over North Branch Clinton River  
**Issued:** February 14, 2019  
**Revised:**  
**Expires:** February 14, 2024

This permit is being issued by the Michigan Department of Environmental Quality (MDEQ), Water Resources Division, under the provisions of the Natural Resources and Environmental Protection Act, 1994 PA 451, as amended (NREPA); specifically:

- Part 301, Inland Lakes and Streams
- Part 303, Wetlands Protection
- Part 315, Dam Safety
- Part 31, Water Resources Protection (Floodplain Regulatory Authority)
- Part 323, Shorelands Protection and Management
- Part 325, Great Lakes Submerged Lands
- Part 353, Sand Dunes Protection and Management

Permission is hereby granted, based on permittee assurance of adherence to State of Michigan requirements and permit conditions, to:

**Authorized Activities: Remove and replace the deck and railings of the existing 37.1 foot long, 65.5 foot span, 8.6 foot rise steel I-beam bridge at the Romeo Plank Road crossing of the North Branch of the Clinton River. All activities shall be completed in accordance with approved plans and conditions of this permit.**

**Waterbody Affected:** North Branch of the Clinton River  
**Property Location:** Macomb County, Ray Township, Town/Range/Section 04N13E05 and 06  
**Property Tax No.**

**Authority granted by this permit is subject to the following limitations:**

- A. Initiation of any work on the permitted project confirms the permittee's acceptance and agreement to comply with all terms and conditions of this permit.
- B. The permittee, in exercising the authority granted by this permit, shall not cause unlawful pollution as defined by Part 31 of the NREPA.
- C. This permit shall be kept at the site of the work and available for inspection at all times during the duration of the project or until its date of expiration.
- D. All work shall be completed in accordance with the approved plans and specifications submitted with the application and/or plans and specifications attached to this permit.
- E. No attempt shall be made by the permittee to forbid the full and free use by the public of public waters at or adjacent to the structure or work approved.
- F. It is made a requirement of this permit that the permittee give notice to public utilities in accordance with 2013 PA 174 (Act 174) and comply with each of the requirements of Act 174.
- G. This permit does not convey property rights in either real estate or material, nor does it authorize any injury to private property or invasion of public or private rights, nor does it waive the necessity of seeking federal assent, all local permits, or complying with other state statutes.

**DEQ-WRD**  
**WRP015321 v1.0**  
**Approved**  
**Issued On:02/14/2019**  
**Expires On:02/14/2024**

- H. This permit does not prejudice or limit the right of a riparian owner or other person to institute proceedings in any circuit court of this state when necessary to protect his rights.
- I. Permittee shall notify the MDEQ within one week after the completion of the activity authorized by this permit by completing and forwarding the attached preaddressed postcard to the office addressed thereon.
- J. This permit shall not be assigned or transferred without the written approval of the MDEQ.
- K. Failure to comply with conditions of this permit may subject the permittee to revocation of permit and criminal and/or civil action as cited by the specific state act, federal act, and/or rule under which this permit is granted.
- L. All dredged or excavated materials shall be disposed of in an upland site (outside of floodplains, unless exempt under Part 31 of the NREPA, and wetlands).
- M. In issuing this permit, the MDEQ has relied on the information and data that the permittee has provided in connection with the submitted application for permit. If, subsequent to the issuance of a permit, such information and data prove to be false, incomplete, or inaccurate, the MDEQ may modify, revoke, or suspend the permit, in whole or in part, in accordance with the new information.
- N. The permittee shall indemnify and hold harmless the State of Michigan and its departments, agencies, officials, employees, agents, and representatives for any and all claims or causes of action arising from acts or omissions of the permittee, or employees, agents, or representative of the permittee, undertaken in connection with this permit. The permittee's obligation to indemnify the State of Michigan applies only if the state: (1) provides the permittee or its designated representative written notice of the claim or cause of action within 30 days after it is received by the state, and (2) consents to the permittee's participation in the proceeding on the claim or cause of action. It does not apply to contested case proceedings under the Administrative Procedures Act, 1969 PA 306, as amended, challenging the permit. This permit shall not be construed as an indemnity by the State of Michigan for the benefit of the permittee or any other person.
- O. Noncompliance with these terms and conditions and/or the initiation of other regulated activities not specifically authorized shall be cause for the modification, suspension, or revocation of this permit, in whole or in part. Further, the MDEQ may initiate criminal and/or civil proceedings as may be deemed necessary to correct project deficiencies, protect natural resource values, and secure compliance with statutes.
- P. If any change or deviation from the permitted activity becomes necessary, the permittee shall request, in writing, a revision of the permitted activity from the MDEQ. Such revision request shall include complete documentation supporting the modification and revised plans detailing the proposed modification. Proposed modifications must be approved, in writing, by the MDEQ prior to being implemented.
- Q. This permit may be transferred to another person upon written approval of the MDEQ. The permittee must submit a written request to the MDEQ to transfer the permit to the new owner. The new owner must also submit a written request to the MDEQ to accept transfer. The new owner must agree, in writing, to accept all conditions of the permit. A single letter signed by both parties that includes all of the above information may be provided to the MDEQ. The MDEQ will review the request and, if approved, will provide written notification to the new owner.
- R. Prior to initiating permitted construction, the permittee is required to provide a copy of the permit to the contractor(s) for review. The property owner, contractor(s), and any agent involved in exercising the permit are held responsible to ensure that the project is constructed in accordance with all drawings and specifications. The contractor is required to provide a copy of the permit to all subcontractors doing work authorized by the permit.
- S. Construction must be undertaken and completed during the dry period of the wetland. If the area does not dry out, construction shall be done on equipment mats to prevent compaction of the soil.
- T. Authority granted by this permit does not waive permit requirements under Part 91, Soil Erosion and Sedimentation Control, of the NREPA, or the need to acquire applicable permits from the County Enforcing Agent (CEA).
- U. Authority granted by this permit does not waive permit requirements under the authority of Part 305, Natural Rivers, of the NREPA. A Natural Rivers Zoning Permit may be required for construction, land alteration, streambank stabilization, or vegetation removal along or near a natural river.
- V. The permittee is cautioned that grade changes resulting in increased runoff onto adjacent property is subject to civil damage litigation.
- W. Unless specifically stated in this permit, construction pads, haul roads, temporary structures, or other structural appurtenances to be placed in a wetland or on bottomland of the water body are not authorized and shall not be constructed unless authorized by a separate permit or permit revision granted in accordance with the applicable law.
- X. For projects with potential impacts to fish spawning or migration, no work shall occur within fish spawning or migration timelines (i.e., windows) unless otherwise approved in writing by the Michigan Department of Natural Resources, Fisheries Division.

Y. Work to be done under authority of this permit is further subject to the following special instructions and specifications:

1. Authority granted by this permit does not waive permit or program requirements under Part 91 of the NREPA or the need to acquire applicable permits from the CEA. To locate the Soil Erosion Program Administrator for your county, visit [www.mi.gov/degstormwater](http://www.mi.gov/degstormwater) and select "Soil Erosion and Sedimentation Control Program" under "Related Links."
2. The authority to conduct the activity as authorized by this permit is granted solely under the provisions of the governing act as identified above. This permit does not convey, provide, or otherwise imply approval of any other governing act, ordinance, or regulation, nor does it waive the permittee's obligation to acquire any local, county, state, or federal approval or authorization necessary to conduct the activity.
3. No fill, excess soil, or other material shall be placed in any wetland, floodplain, or surface water area not specifically authorized by this permit, its plans, and specifications.
4. This permit does not authorize or sanction work that has been completed in violation of applicable federal, state, or local statutes.
5. The permit placard shall be kept posted at the work site, in a prominent location at all times for the duration of the project, or until permit expiration.
6. This permit is being issued for the maximum time allowed and no extensions of this permit will be granted. Initiation of the construction work authorized by this permit indicates the permittee's acceptance of this condition. The permit, when signed by the MDEQ, will be for a five-year period beginning on the date of issuance. If the project is not completed by the expiration date, a new permit must be sought.
7. Unless specifically stated under the "Permitted Activity" of this permit, construction pads, haul roads, temporary structures, or other structural appurtenances to be placed in a wetland or on bottomland of the waterbody are not authorized and shall not be constructed unless authorized by a separate permit or permit revision granted in accordance with the applicable law.
8. No filling, grading, excavating, dredging or use of wetland is authorized by this permit.
9. This permit does not authorize or sanction work that has been completed in violation of applicable federal, state, or local statutes.
10. The permittee is responsible for acquiring all necessary easements or rights-of-way before commencing any work authorized by this permit. All construction operations relating to or part of this project shall be confined to the existing right-of-way limits or other acquired easements.
11. Temporary soil erosion and sedimentation control measures shall be installed before or upon commencement of the earth change and shall be maintained daily. Temporary soil erosion and sedimentation control measures shall be maintained until permanent soil erosion and sedimentation control measures are in place and the area is stabilized. Permanent soil erosion and sedimentation control measures for all slopes, channels, ditches, or any disturbed area shall be installed within five (5) calendar days after final grading or the final earth change has been completed.
12. All raw areas in uplands resulting from the permitted construction activity shall be effectively stabilized with sod and/or seed and mulch (or other technology specified by this permit or project plans) in a sufficient quantity and manner to prevent erosion and any potential siltation to surface waters or wetlands. Temporary stabilization measures shall be installed before or upon commencement of the permitted activity and shall be maintained until permanent measures are in place. Permanent measures shall be in place within five (5) days of achieving final grade.
13. All raw earth within 100 feet of a lake, stream, or wetland that is not brought to final stabilization by the end of the active growing season shall be temporarily stabilized with mulch blankets in accordance with the following dates: September 20<sup>th</sup> for the Upper Peninsula, October 1<sup>st</sup> for the Lower Peninsula north of US-10, and October 10<sup>th</sup> for the Lower Peninsula south of US-10.
14. This permit placard shall be kept posted at the work site, in a prominent location at all times for the duration of the project, or until permit expiration.
15. This permit is being issued for the maximum time allowed and no extensions of this permit will be granted. Initiation of the construction work authorized by this permit indicates the permittee's acceptance of this condition. The permit, when signed by the MDEQ, will be for a five-year period beginning at the date of issuance. If the project is not completed by the expiration date, a new permit must be sought.
16. All slurry resulting from any dewatering operation shall be discharged through a filter bag or pumped to a sump located away from wetlands and surface waters and allowed to filter through natural upland vegetation, gravel filters, or other engineered devices for a sufficient distance and/or period of time

necessary to remove sediment or suspended particles. The discharge of slurry water resulting from the hydrodemolition of concrete is not allowed to enter a lake, stream, or wetland.

17. All dredge/excavated spoils including organic and inorganic soils, vegetation, and other material removed shall be placed on upland (non-wetland, non-floodplain or non-bottomland), prepared for stabilization, and revegetated and reseeded with native Michigan species appropriate to the site and mulched in such a manner so as to prevent and ensure against erosion of any material into any waterbody, wetland, or floodplain.
18. During removal or repair of the existing structure, every precaution shall be taken to prevent debris from entering any watercourse. Any debris reaching the watercourse during the removal and/or reconstruction of the structure shall be immediately retrieved from the water. All material shall be disposed of in an acceptable manner consistent with local, state, and federal regulations.
19. The use of explosives for removal of the structure over the waterbody, including any abutments or piers, is strictly prohibited.
20. Prior to the removal of the existing structures, cofferdams of steel sheet piling, gravel bags, clean stone, coarse aggregate, concrete or other acceptable barriers shall be installed to isolate all construction activity from the water. The barriers shall be maintained in good working order throughout the duration of the project. Upon project completion, the accumulated materials shall be removed and disposed of at an upland site.
21. All cofferdam and temporary steel sheet pile shall then be removed in its entirety, unless specifically shown to be left in plan on the accepted plans. Cofferdam and sheet pile that is left in place shall be cut off at the elevation shown on the plans and shall be a minimum of one foot below the stream bottom.
22. The road fill side slopes shall not be steeper than 1-on-2 (1 vertical to 2 horizontal) except where headwalls of reinforced concrete, mortar masonry, dry masonry, or other acceptable methods are used.
23. Road fill side slopes terminating in the stream and any raw streambanks resulting from the construction, shall be stabilized with temporary measures in accordance with appropriate Best Management Practices based on site conditions, and if necessary, may be riprapped extending above the ordinary high water mark, before or upon commencement of the permitted activity. Temporary stabilization measures shall be maintained until permanent measures are in place.
24. All other road fill slopes, ditches, and other raw areas draining directly to the stream may be protected with riprap, sod and/or seed and mulch as may be necessary to provide effective erosion protection. The placement of riprap shall be limited to the minimum necessary to ensure proper stabilization of the side slopes and fill in the immediate vicinity of the structure.
25. If the project, or any portion of the project, is stopped and lies incomplete for any length of time (other than that encountered in a normal work week) every precaution shall be taken to protect the incomplete work from erosion, including the placement of temporary gravel bag riprap, temporary seeding and mulching, or other acceptable temporary protection.
26. No work shall be done in the stream during periods of above-normal flows except as necessary to prevent erosion.

MACOMB COUNTY DEPARTMENT OF ROADS  
ADVERTISEMENT FOR  
**ROMEO PLANK ROAD OVER NORTH BRANCH CLINTON RIVER  
DECK REPLACEMENT – MCDR W.O. #1740**

BIDS DUE: TUESDAY, FEBRUARY 26, 2019, 11:00 A.M., EST

The Macomb County Department of Roads (MCDR) will receive sealed bids for the following highway improvements until 11:00 a.m. EST, Tuesday, February 26, 2019, at the Macomb County Department of Roads, 117 S. Groesbeck Highway, Mount Clemens, Michigan 48043 at which time and place all bids will be publicly opened and read:

**PROJECT DESCRIPTION:**

This project includes replacement of the Romeo Plank Road bridge deck over North Branch Clinton River in Ray Township, Macomb County. Associated work includes steel beam blast cleaning and coating, approach pavement replacement, structure painting, aesthetic railing treatment, guardrail replacement, and pavement markings.

Plans and Specifications will be on file and will be available on or after Monday, February 4, 2019, at the Macomb County Department of Roads Administration Building, 117 S. Groesbeck Highway, Mount Clemens, Michigan. Plans will be available electronically for no fee. **All downloadable files are password protected.** Prospective bidders must send an email to Melissa Hollebrands at [mhollebrands@rcmcweb.org](mailto:mhollebrands@rcmcweb.org) for the password to access the plans and proposal. Bidders, please provide your name and company name in your email. The bidder will then receive a reply with the proposal and/or plans passwords. It will be the bidder's responsibility to print out the proposal entirely and then submit it to the Macomb County Department of Roads by the date listed above. **No proposals will be accepted by email.** If a hard copy of the proposal is preferred, they can be released upon payment of a \$30.00 **NON-REFUNDABLE** (CHECK ONLY-no credit cards or cash accepted) fee. Prospective bidders must have current prequalification with the Michigan Department of Transportation in the proper classification and numerical rating required for the work to bid.

NOTE: BIDS WHICH DO NOT COMPLY WITH THE FOLLOWING PREQUALIFICATION REQUIREMENT MAY NOT BE READ AT THE DISCRETION OF THE MCDR:

1. The prequalification rating shall be on file at the Macomb County Department of Roads, or shall be attached to the bid. However, a letter from the Department of Transportation may be accepted if the letter discloses that the prequalification rating with the Department of Transportation is extended, is currently in effect, and has not lapsed.
2. A Contractor whose prequalification's have expired, and is unable to supply with the proposal a letter of extension from the Michigan Department of Transportation prequalification unit, as described in paragraph 1 above, shall certify in writing that their prequalification has been extended by the Michigan Department of Transportation until such time as their new rating can be issued. Certification means a written, notarized affidavit under oath, setting forth facts (dates, times, and individuals) which will serve to substantiate the contractor's claims of classification. If this certification does not accompany the bid, the MCDR in its discretion may elect not to read the bid.

**NET CLASSIFICATION: 527 Fa**

A satisfactory Bid Bond, Certified or Cashier's Check, Bank Money Order, or Certificate of Deposit on an open, solvent bank in the amount of not less than 5% of the total bid and made payable to the Macomb Department of Roads shall be submitted with each bid.

The MCDR at its discretion reserves the right to reject any or all bids and to waive any irregularities in the bidding process and to make the award as may appear to be in the best interest of the County of Macomb.

No bid may be withdrawn after the scheduled closing time for receiving bids for at least 45 days. No proposal will be received unless made on blanks furnished by and delivered to the Macomb County Department of Roads on or before Tuesday, February 26, 2019, 11:00 a.m. EST.
